0. NETSPAR TRACKS

Netspar and Tilburg University offer a Pensions, Aging and Retirement (Netspar) track in four Master programs:

- Master in Finance;
- Master in Economics;
- Master in Econometrics and Mathematical Economics (EME);
- Master in Quantitative Finance and Actuarial Science (QFAS).

A track consists of two courses specific for each Master program, and one general course. On the right you find all courses and lecturers. Next to these courses, Netspar offers several events and activities (like the International Pension Workshop and company visits), mandatory for graduation.

So far, 18 students graduated in 2016 with a Netspar certificate. 38 Students have joined the Netspar community and 28 of them followed the program officially.
